

WE ARE OPEN FOR BUSINESS!

To Our Valued Customers,

As shelter-in-place orders continue to roll across our nation, Carylon's 13 companies with over 1,500 employees in over 30 locations are open for business. During these difficult times we continue to perform our essential services to help maintain, inspect, and rehabilitate sewer and water systems, wastewater plants, water plants, power generating stations and other utilities, plants and factories.

The health and safety of our employees remains our top priority as well. All of us at Carylon are following strict guidance from federal, state and local health officials. We are working to ensure our employees have the necessary personal protective gear to do their jobs safely, we have increased the frequency of cleaning offices, workstations, trucks and equipment, and we are practicing social distancing and work-from-home protocols where possible.

We have been here since 1949 and are proud to have served our customers during other challenging events in our country's history. We will continue to work with our customers and local communities to do the work we are known for – providing the tools, the manpower, the equipment and expertise to maintain critical infrastructure and systems. Carylon and its companies are here for you as together we work through this challenging time.

Please reach out to any of [our companies](#) if you need assistance.
